SUMMARY

Fullstack Developer with professional experience building responsive web applications, internal dashboards, and web platforms. Strong frontend background with hands-on experience in React, JavaScript, HTML, CSS, UI implementation, API integration, and performance optimization, complemented by backend experience with Node.js and PostgreSQL. Experienced in developing and maintaining applications across frontend and backend environments.

WORK EXPERIENCE

PT Kode Kolektif Indonesia - Yogyakarta, Indonesia

Fullstack Developer - Fulltime, Onsite

Apr 2026 - Present

- Developed and maintained Back Office (BO) platforms used by operational teams to manage merchants, clients, transactions, and payment-related activities.
- Developed and implemented new features and enhancements across admin and merchant back-office applications based on business and operational requirements.
- Integrated multiple payment gateways and third-party payment providers into a white-label payment platform, enabling merchants to access and process transactions through integrated providers.

Frontend Developer - Fulltime, Onsite

Sep 2025 - Apr 2026

- Translated UI/UX designs into pixel-accurate, responsive web interfaces using HTML, CSS, and JavaScript, ensuring consistent layouts across desktop, tablet, and mobile devices.
- Developed company profile websites and landing pages based on provided UI/UX designs, focusing on responsive layouts, visual consistency, and usability.
- Converted design mockups into reusable and maintainable frontend components while ensuring accurate implementation of spacing, typography, layouts, and interactions.
- Developed and customized WordPress websites using Elementor, implementing responsive layouts and page structures based on project requirements.
- Collaborated with UI/UX designers and developers to ensure accurate design implementation and resolve frontend issues during development and testing.

Mobile Developer - Freelance, Hybrid

Mar 2025 - Sep 2025

- Developed a React Native mobile application for parents to monitor and manage their children's activities and information at a pesantren (Islamic boarding school).
- Implemented student information management, including viewing and updating student profiles and personal data.
- Integrated payment management features, allowing parents to view payment status, transaction history, and related financial information.
- Developed a news and announcements feature to keep parents informed about updates and activities from the pesantren.

- Integrated REST APIs and managed application data to ensure reliable synchronization between the mobile application and backend services.
- Collaborated with UI/UX designers and backend developers to deliver a responsive, scalable, and maintainable mobile application.

Frontend Developer Intern - Intern, Onsite

Oct 2024 - Jan 2025

- Developed responsive company profile websites and landing pages using HTML, CSS, and JavaScript, translating UI/UX designs into responsive and pixel-accurate web interfaces.
- Developed Jogja Coding House (JCH) website, an event management platform with separate user and admin dashboards for event discovery, registration, and content management.
- Optimized website performance and PageSpeed, improving pages that initially scored below recommended levels to achieve green performance scores

EDUCATION

Universitas AMIKOM Yogyakarta - *Yogyakarta, Indonesia*

Apr 2021 - Aug 2025

Bachelor's Degree in Informatics, GPA 3.85

- Served as a laboratory assistant for Computer Graphics, Multimedia, and Database Systems.
- Participated in the Kampus Merdeka Study Independent Program at Binar Academy, focusing on Fullstack Web Development.
